

## Hide-A-Hose retractable hose

The perfect solution for quick and easy cleaning. It solves the problem of carrying and storing a central vacuum hose.

Each retractable Hide-A-Hose is housed inside the wall.

Simply pull the hose out to the required length for cleaning,...

... attach the preferred tool for your cleaning task and switch the system on.

Now you are able to vacuum at lightning speed.

Once you've finished disconnect the cleaning tool, partially cover the mouth of the hose with your hand and it retracts back into its wall housing.

Hide-A-Hose increases the comfort of your central vacuum system enormously. In the living area only the inlet valve of the Hide-A-Hose is visible.

**Never have to carry a hose around with you again with our practical new retractable hose system. You save time and space!**
